KOVANA

Open to internships
from February 2027

Anastasiia Kovtun

Digital experience designer

I'm a Ukrainian designer living in Brussels. I design apps and websites, build them with AI, make them move and give them a name. I studied International Relations first, then switched to design. KOVANA is my name for what I make.

French · A2

EDUCATION

2024 – 2027 — **International Digital Experience Design**
Thomas More University of Applied Sciences, Mechelen

2021 – 2025 — **Bachelor in International Relations**
Ivan Franko National University of Lviv

SELECTED PROJECTS

2025 · Solo — **The Oat**
A browser extension concept for Oatly that helps home cooks swap dairy for oat. Research, branding, UX/UI, motion.

2025 · Solo — **Ripple**
A water sensor and app that shows where a household uses and wastes water, with a full business plan.

2026 · Team of 3 — **Livio**
A seasonal living app, built and tested with 10 people. The test showed five problems, and we fixed all of them.

2025 · Team of 4 — **SNCB app redesign**
Calmer train travel for autistic passengers: a Calm Mode, quieter visuals and clear filters.

2026 · Solo — **Bubbly**
Art direction and website for a bubble tea brand.

EXPERIENCE & COURSES

2024 — **Freelance social media design**
Instagram posts and story ads.

2025 · 3 months — **BYSHIVA PROJECT 2.0**
Web and UI/UX design course with Olexandr (BY.SHIVA), web and UI/UX designer.

2023 — **FigmaCreo**
A course on designing ad creatives for social media in Figma.
